The Summer School Programmes at IIM Kozhikode are short-term, residential courses designed to offer a comprehensive learning experience through a blend of academic sessions, industrial visits, workshops, and seminars. These programmes cater primarily to international students—especially those pursuing undergraduate or master's degrees—providing them with an opportunity to explore India through focused summer learning, rather than semester exchange programmes.

The Summer School Programmes are mainly offered to student groups from Europe, the United Kingdom, the United States, and Australia. Small groups of 15–20 students from foreign universities, particularly IIMK's partner institutions, visit the campus to gain insights into doing business in India, understand Indian corporate culture, and experience the country's rich social fabric. Upon completion, participants are awarded a Certificate of Participation.
